

Make a chain

Why not make paper chains to decorate your table?

- Find a piece of paper and cut it into strips. Any paper will do – even newspaper if you haven't any plain
- Decorate each strip as you please
- Curl the first strip around to make a circle and stick with glue (or for a proper wartime experience, make a flour and water paste and use that instead)
- Feed the second strip through the first and seal that into a circle too
- Continue until you have used all your strips or have reached the length you want
